Category 6 Solutions

TrueNet®

Category 6 Solutions

ADC KRONE's Category 6 solutions are guaranteed to exceed Class E channel specifications as set down in Australian and International standards.

The RJ45 solution comprises Category 6 component compliant patch panels, wall outlets and patch cords. When combined with ADC KRONE's cable, an end-to-end channel exists that maximises data throughput and provides headroom for all future technologies operating beyond one Gigabit.

Category 6

Product Description	Pack Quantity	Part Number	Product

HighBand® 25 is the perfect choice for high profile corporate customers, providing the platform needed for the most advanced networks. With unrivalled performance well beyond Gigabit Ethernet, HighBand 25 is the world's only high-density module that has a disconnect feature, making it the ideal product for a Patch-by-Exception solution.

This ordering guide highlights the main products used in ADC KRONE's TrueNet Category 6 structured cabling solutions. All products are supported by ADC KRONE's comprehensive 20* year warranty.
