

FiberGuide® System

RiserGuide

Because cable management requirements change with network requirements, ADC KRONE now offers the **RiserGuide System (RGS)**, designed to provide cable management where you need it, when you need it.

The RiserGuide System is flexible, modular and easy to install and remove, allowing for on-the-spot cable management and full network optimisation.

Features:

- Multiple standard width risers
- Various components can be installed anywhere on the riser
- Components include storage spools, radius limiters and cable guides
- Break-out cable slack storage

Benefits:

- RGS provides flexible, “on demand” cable management
- Cable management components can be installed anywhere on the riser
- Simple, tool-free installation
- Designed to meet GR-63 standard
- Supported by ADC KRONE’s cable management expertise
